NEW! Tactical Hapkido Alliance Quarterly Newsletter coming soon

Grandmaster Barry Rodemaker, Master Douglas Brown and Master James Ziots are developing the Tactical Hapkido Alliance newsletter that will be sent by email starting in November 2008. This newsletter will be sent directly to all students who are members of the Tactical Hapkido Alliance or are students of a charter member school. Articles will be written by Grandmaster Barry Rodemaker, Master Brown and Ziots will be editors and email coordination will be handled by Master Ziots.

The format will quite similar to the format of this newsletter with minor changes made.

This will be an exciting and informative newsletter that will provide in-depth developments in the Tactical Hapkido family and events that we may not even be aware of.

So keep an eye out for this to be coming to your email inbox in November.

New Tactical Hapkido Videos and Manuals in Development

Working with Grandmaster Rodemaker, Master Brown and Ziots will be developing a new video series highlighting the "empty hand" concepts in defending against and using knife and clubs. Videos and manuals will be available to purchase. Filming for these series will commence on November 8th.

If everything goes as scheduled Tactical Hapkido will air on the Best Defense online video series on November 12th right before the United States Head of Family Martial Arts hall of Fame. Tactical Martial Arts Academy Expands to Berea Ohio

The Tactical Martial Arts Academy opened a second school located at 170 Seminary Street in Berea Ohio on October 5th. Our first class there had six new students (names will appear on the next newsletter). The head instruction of this branch is Reverend Dr. H. George Myers (or Skip). He has been studying the martial arts for several years under the tutelage of Master Brown and Master Ziots and currently holds a second degree black belt in Tactical Hapkido. In addition to Skip teaching, Master Brown is also teaching at this location while Master Ziots will also teach at this location from time to time.
